SRI T. S. RAMASWAMI : வேலையில்லாமல் இருப்பவர்களுடைய புள்ளி விவரங்கள் இல்லை என்று அமைச்சர் அவர்கள் சொல்லுகிறார்கள். நமது ராஜ்ஜியத்தில் வேலை செய்து கொண்டிருக்கும் "ஸ்டாடிஸ்டிக்கல் டிபார்ட்மென்ட்"னால் இந்த புள்ளிவிவரங்களைச் சேகரிப்பதற்கு ஏற்பாடு செய்யப்படுமா?

THE HON. SRI R. VENKATARAMAN : I am willing to give some information of sample survey that was conducted. Otherwise, to collect all this information will not be worth-while and it will entail enormous amount of time and energy which is not commensurate with the purpose which we want to serve. So far as the City of Madras is concerned there was an enquiry and an economic survey was conducted by the University during the years 1954-57. That survey covered a 5 per cent sample or 13,479 (households) approximately; as per that, the percentage of the unemployed persons to the total population in the City was estimated to be 3.2, which the percentage of the unemployed persons to the economically active population (i.e., total population minus children below 15 years, and adults above 55 years) was estimated as 5.75. Taking into account the household workers contributing to disguised unemployed; the estimate of the percentage of the unemployed in the City was raised to 9.5.
